## Introduction

Siskiyou County lies on the northern boundary of California, bordered by Oregon to the north, Del Norte and Humboldt Counties to the west, Trinity, and Shasta Counties to the south and Modoc County to the east. The economic base of the County is a combination of agriculture, forest products, and recreation.

The region encompasses 6,287 square miles with a variety of terrains including valleys, rivers, high desert landscape, and the picturesque Mount Shasta. A significant portion of the County's area is owned by various federal agencies such as the United States Forest Service and the Bureau of Land Management. There are five national forests within Siskiyou County that collectively total approximately sixty percent of the County's land. These federally owned lands limit the amount of property tax available to the County.

Some of the land uses within the region include residential, commercial, industrial, and agricultural. One quarter of the total acreage of the County is used for agricultural purposes.

Siskiyou County ranks 45<sup>th</sup> in the state for estimated population, which as of January 2023 indicates a projected County population of 43,548. This equates to an estimated 6.93 people per square mile.

The region encompasses nine incorporated cities, five community service districts, plus numerous smaller communities such as Callahan, Cecilville, Edgewood, Gazelle, Greenview, Grenada, Hilt, Horse Creek, Klamath River, Macdoel, Seiad Valley, and Somes Bar. Many of the communities are located along a state route corridor such as State Route 3, State Route 96, State Route 97, or Interstate 5. The City of Yreka is the County seat. The region also includes two federally recognized tribes, the Karuk Tribe, and the Quartz Valley Indian Reservation. Both entities are members of the Technical Advisory Committee. In addition to the numerous local agencies the region also encompasses lands managed by federal land management agencies such as the United States Forest Service (Klamath and Shasta-Trinity) and the Bureau of Land Management.

Coordination between the various agencies within the region and across the north state is essential to the successful delivery of projects. The SCLTC will be actively involved with projects to ensure all appropriate agencies are engaged.

SCLTC will endeavor to engage the numerous local, state, and federal agencies and coordinate transportation planning at the regional level while providing input and coordinating with agencies on smaller scale efforts.

## **Background**

The Siskiyou County Local Transportation Commission (SCLTC) is the designated Regional Transportation Planning Agency (RTPA) for Siskiyou County. SCLTC provides support and assists with coordination on projects between our local partners and various funding programs.

The transportation planning requires involvement from a variety of stakeholders including, but not limited to, federal, state, and local agencies, tribal governments, private partners, and the public. During the year a variety of projects are at various phases of the planning process. The Overall Work Program identifies a set of priorities for Commission staff to accomplish during the fiscal year, which is July 1<sup>st</sup> to June 30<sup>th</sup> of the following calendar year.

The Overall Work Program (OWP) identifies opportunities for collaboration, coordination, public engagement and financing for various plans and programs. Each work element within the identifies the funding sources, expected activities, and outcomes. One of the core products of the OWP is the Regional Transportation Plan (RTP). The OWP and RTP should be consistent with federal and state planning goals, programs, plans, and objectives. They represent a unified approach to a multimodal regional transportation network.

The key programs linked to the OWP include the Regional Transportation Improvement Program (RTIP), State Transportation Improvement Program (STIP), Federal State Transportation Improvement Program (FSTIP), State Interregional Transportation Improvement Program (ITIP), and State Highway Operation and Protection Program (SHOPP).

## **Organization**

The Siskiyou County Local Transportation Commission (SCLTC) was created by the Transportation Development Act (TDA) and established in 1972. The SCLTC governing board consists of three delegates appointed by the Siskiyou County Board of Supervisors and three delegates appointed by the League of Local Agencies, which represents the nine incorporated cities. Each appointing agency also has one alternate.

In 2023 the Commission created a full-time Executive Director position to manage all daily activities, projects, and coordination activities. This is currently the Commission's only staff. Commission activities are supported by dedicated transportation funding such as the local transportation funds, rural planning assistance funds (OWP), and other grant programs (as awarded). The Rural Planning Assistance (RPA) funds provide for transportation planning activities within the region and fund most of the work outlined in the OWP.

The Siskiyou County Local Transportation Commission's Technical Advisory Committee (TAC)

consists of representatives from each incorporated City, the Karuk Tribe, the Quartz Valley Indian Reservation, Siskiyou County Public Works, Caltrans District 2, and Siskiyou Transit and General Express. The TAC currently meets as needed to review topics and make recommendations to the SCLTC.

The Social Services Transportation Advisory Council (SSTAC) helps ensure broad citizen participation and assists with the annual Unmet Transit Needs Findings. The SSTAC is a “mechanism to solicit input of transit dependent and transit disadvantaged persons, including the elderly, handicapped and persons of limited means.” The SSTAC will also serve as the Citizens Advisory Committee (CAC) to facilitate community and public input during regional transportation planning activities. Data gathered throughout the year will be used to identify opportunities for coordination of services and identify gaps or needs that are not currently met by existing services.

## **Public Participation**

The Commission encourages participation from the public in a variety of ways. Information about upcoming meetings is posted on the Commission's Facebook Page (<https://www.facebook.com/sistransportation/>). The agenda packets are posted to the Commission's page on the County website in accordance with California Government Code 54954.2. A printed copy of the agenda is posted at the Siskiyou County Transit Center for public review.

Regular meeting agenda packets are sent to any individual who requests to be added to an email notification list. These email notifications are sent to Commissioners, interested Siskiyou County staff, members of the Social Services Transportation Advisory Council (SSTAC), and members of the Technical Advisory Council (TAC).

Commission staff also coordinate with the Public Information Officer and other relevant departments at the County of Siskiyou to distribute information through their various social media platforms to increase public awareness and increase participation in various Commission activities.

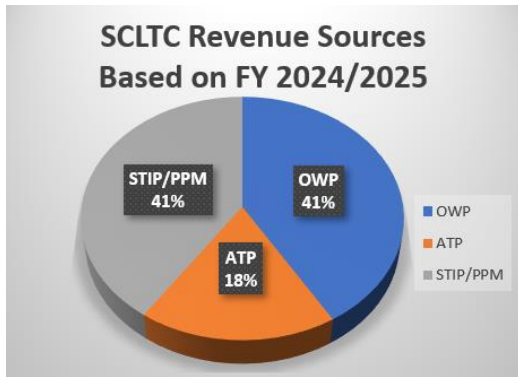

The Commission is in the process of developing a comprehensive Public Participation Plan that identifies key stakeholders and methods to regularly engage the public in the transportation planning process. Regular updates, as necessary, will be conducted to ensure ongoing active engagement from the public and stakeholders.

## **Revenue Sources**

SCLTC's Overall Work Program for FY 2024/2025 will utilize \$ 230,000. The anticipated revenue sources are described by fund source below and amounts are included in Table 1 and Appendix A. This program is financed by a combination of State and local funding sources identified below as approved by the SCLTC:

- Rural Planning Assistance (RPA) – These funds are provided by subvention through Caltrans, Rural RPA funds are estimated to be \$6.5 million, pending adoption of the State budget. RPA funds are available for specific eligible uses on a reimbursement basis. Recipients may carry over a maximum of twenty-five percent (25%) of unexpended funds from one fiscal year to the next.
- State Transportation Improvement Program (STIP) Planning, Programming, and Monitoring (PPM) – The Commission may use up to five percent (5%) of its Regional Improvement Program (RIP) shares for eligible PPM activities associated with the STIP requirements. SCLTC is proposing to use a portion of the 2024 STIP shares to continue a contract to provide updated pavement condition index data to local agencies; as well as to complete the next update to the Siskiyou County Regional Transportation Plan.
- Regional Surface Transportation Program (RSTP) - The SCLTC annually receives State Highway Account funds representing the County's share of the Federal Regional Surface Transportation Program.

- Active Transportation Program (ATP) – The Commission was awarded a grant through the California Transportation Commission’s Active Transportation program in October 2021. The grant was awarded for the development of a Regional Active Transportation Plan. RPA and RSTP funds are being used as the required match for the ATP grant.

- Local Transportation Funds (LTF) – The Commission utilizes LTF funds to augment the RPA and STIP funds for any non-eligible expenses throughout the fiscal year.
